WORK EXPERIENCE

Web Developer (PHP) | Output Digital

08/2017 – PRESENT

Working in the team creating ERP systems for agriculture and other businesses using PHP, JavaScript languages and Laravel framework.

Working with server software such as WHM and cPanel, also directly interacting with a server using Linux Shell commands.

Collaborating with a team of 5 developers, sharing modules we are working on using GIT repositories, reviewing merge requests and making decisions on appearing conflicts.

Reporting back to the project manager in person and via additional tools (Teamwork, Slack), giving estimates of how long specific module will take and update him when milestones are reached.

Using tailored databases solutions to manage large datasets, storing them and retrieving them efficiently, updating them throughout the project.

Providing customers with technical support via support desk and remote desktop, prioritizing tasks depending on how critical they are.

Managing multiple projects at once including current and legacy projects, prioritizing my time and making a schedule for months in advance for the project manager.

Web Developer | Freelance

01/2015 – PRESENT

Working closely with clients to understand their needs, explaining to them the basic structure of website and components needed.

Working with a variety of Web Development languages such as PHP, JavaScript, HTML, and Laravel framework.

Managing my time assigned specific weeks to specific projects leaving time to support clients require within their systems.

Creating tailored solutions for each individual client needs, customizing the software to make it as easy to use.

Waiter | Conor Cafe

01/2016 – 07/2017

Working in a team to provide best customer experience in the restaurant, sharing and managing jobs together.

Working with cash handling and housekeeping duties.

EDUCATION

BSc Hons Computing Science | Ulster University

2017 – PRESENT

Year 2 Modules:

Programming (II), Programming (III), Client Server Application Development, Data Communication and Networking, Systems Software, Systems Development – Pending

Year 1 Modules:

Programming (I) – 80

Introduction to Databases – 74

Mathematics for Computing – 75

Computing Technologies - 61

IELTS | Queens University

2017

Achieved IELTS Certificate with overall 8/9

Diploma in IT | Belfast Metropolitan College

2016 – 2017

Achieved Level 3 Diploma in IT with Distinction* Distinction*

A Levels & GCSE | Klaipeda Vetrunge Academy

2008 – 2012

Equivalent to A Levels:

Information Technology (A), Mathematics (B), Chemistry (C)

Equivalent to GCSE:

Information Technology (A*), Mathematics (A), Chemistry (A), Physics (B)

SKILLS

- **Programming Languages**
 - PHP (Proficient)
 - JavaScript (Proficient)
 - Java (Advanced)
 - C++ (Advanced)
 - Python (Familiar)
- **Software & OS**
 - GIT Repositories (Proficient)
 - Windows & Mac OS (Proficient)
 - Linux & Linux Shell Commands (Advanced)
 - WHM and cPanel (Advanced)

ACTIVITIES

Outside Web Developing I enjoy ballroom dancing, hiking, microcontroller engineering and programming and keeping up with the latest technology.
